✉ 103B, Building 2, Zijing Apartment, Tsinghua University, 100084 📍 Beijing, China

EDUCATION

Bachelors of Engineering in Computer Science (Yao Class)

Tsinghua University

📅 Sep. 2020 – Present 📍 Beijing, China

- GPA 3.93 / 4.00;
- Gold medalist at the 2018 China National Olympiad in Informatics (NOI), leading to direct admission into Tsinghua University.

Visiting Student

Massachusetts Institute of Technology

📅 Feb. 2023 – Aug. 2023 📍 Boston, US

- Advised by Prof. Joshua B. Tenenbaum and Prof. Chuang Gan.
- Specialized in Large Language Models as Agents and Embodied AI.

PUBLICATION (*DENOTES EQUAL CONTRIBUTION)

Building Cooperative Embodied Agents Modularly with Large Language Models [link] ICLR 2024

Authors: Hongxin Zhang*, Weihua Du*, Jiaming Shan, Qinhong Zhou, Yilun Du, Joshua B. Tenenbaum, Tianmin Shu, Chuang Gan.

- We developed cooperative embodied agents by leveraging LLM, named CoELA, focusing on communicating and reasoning in multi-agent embodied environments. CoELA can cooperate effectively with both AI agents and humans.

Automatic Truss Design with Reinforcement Learning [link] IJCAI 2023

Authors: Weihua Du*, Jinglun Zhao*, Chao Yu, Xingcheng Yao, Zimeng Song, Siyang Wu, Ruifeng Luo, Zhiyuan Liu, Xianzhong Zhao, Yi Wu.

- We built AutoTruss, a two-stage framework addressing the complex combinatorial optimization challenge of truss layout design in the building industry, which outperforms the previous baselines on both 2D and 3D truss design tasks.

Iteratively Learn Diverse Strategies with State Distance Information [link] NeurIPS 2023

Authors: Wei Fu, Weihua Du, Jingwei Li, Sunli Chen, Jingzhao Zhang, Yi Wu.

- We developed a diversity-driven RL algorithm, State-based Intrinsic-reward Policy Optimization (SIPO). SIPO consistently produces strategically diverse and human-interpretable policies that surpass existing baselines.

HAZARD Challenge: Embodied Decision Making in Dynamically Changing Environments [link] ICLR 2024

Authors: Qinhong Zhou*, Sunli Chen*, Yisong Wang, Haozhe Xu, Weihua Du, Hongxin Zhang, Yilun Du, Joshua B. Tenenbaum, Chuang Gan.

- We created HAZARD, a novel benchmark for evaluating the decision-making abilities of intelligent embodied agents within high-fidelity virtual environments that undergo dynamic changes, like fire, flood, and wind.

PREPRINT (*DENOTES EQUAL CONTRIBUTION)

T-Eval: Evaluating the Tool Utilization Capability Step by Step [link] ArXiv Preprint

Authors: Zehui Chen*, Weihua Du*, Wenwei Zhang*, Kuikun Liu, Jiangning Liu, Miao Zheng, Jingming Zhuo, Songyang Zhang, Dahua Lin, Kai Chen, Feng Zhao

SELECTED PRIZES

| | | |
|--|---|-----------|
| Zheng Geru Scholarship | Comprehensive Excellent Award in Tsinghua University, top 20% | Oct. 2023 |
| Andrew C. Yao Award (Recognition Prize) | Scholarship in Yao Class, top 20% | Sep. 2023 |
| Mr. and Mrs. Qu Yuzhi Scholarship | Academic & Sport Award in Tsinghua University | Oct. 2022 |
| China Collegiate Programming Contest (CCPC), Weihai Site | Rank 4, Gold Medal | Nov. 2021 |

RESEARCH INTERESTS

- LLM-Based Agent
- Embodied AI
- Reinforcement Learning

LANGUAGES

- Chinese: Native Speaker.
- English: TOEFL 105.

EXPERIENCE

Research Intern
MIT-IBM Watson AI Lab, Massachusetts Institute of Technology
Feb. 2023 – Present Boston, US / Remote

- Advised by Prof. Joshua B. Tenenbaum and Prof. Chuang Gan;
- Developed cooperative embodied agents by leveraging Large Language Models (LLMs), focusing on communication and reasoning in complex embodied multi-agent environments.

Research Intern
Shanghai Artificial Intelligence Laboratory
Aug. 2023 – Present Shanghai, China

- Advised by Dr. Wenwei Zhang and Dr. Kai Chen;
- Involved in the iterating of InternLM, focusing on improving tool calling capabilities.

Research Intern
IIIS, Tsinghua University
Jun. 2022 – Jan. 2023 Beijing / Shanghai, China

- Advised by Prof. Yi Wu;
- Developed *AutoTruss*, a two-stage framework addressing the complex combinatorial optimization challenge of truss layout design in the building industry;
- Another work aimed to optimize rewards and discover diverse strategies, developing a diversity-driven RL algorithm, State-based Intrinsic-reward Policy Optimization (SIPO).

OTHERS

- Member of Tsinghua University Volleyball Team.
- Volunteer at the Student Development Center of Tsinghua University.
- Accumulated 187.0 hours of officially documented volunteer work during my undergraduate studies.
